

New ACDS Advocacy Website

Alberta Council of Disability Services

[Advocating for, supporting, and elevating the community disability sector in Alberta](#)

The Alberta Council of Disability Services (ACDS) is a member-driven, not-for-profit organization committed to strengthening the community disability sector to benefit Albertans with developmental disabilities.

I am pleased to announce that we have created a website specifically dedicated to ACDS' advocacy work.

The website, www.ACDSAdvocacy.com features the ACDS Advocacy Toolkit including resources, tools and tactics developed by and in consultation with this committee.

In addition, the website includes:

- Additional ACDS resources that inform and support our advocacy work
- Advocacy tools developed by other organizations for the election
- Information about ACDS and the sector

Please contact me if you have any questions or if you require my assistance to help promote the site and toolkit. I look forward to working with you to make the [#advocate4cds](#) campaign a success!

Many thanks,

Jasvir
